

ANNOUNCEMENT LS-14

MAY 2004

**PURCHASE OF CANNED STEW PRODUCTS
FOR DISTRIBUTION TO ELIGIBLE OUTLETS**

I. GENERAL

- A. The United States Department of Agriculture (USDA) will periodically issue Invitations under this Announcement for offers to sell to USDA canned stew products as described in the attached References to Applicable Bid and Contract Provisions (see Exhibit A). In addition to product description, this exhibit also provides information on the applicable Item Description and Checklist of Requirements (IDCR) for each canned stew product.

Canned stew products will be purchased on a competitive bid basis from suppliers who have met the requirements described in Section I.D.5. Interested suppliers may submit samples and technical proposals at any time during this purchase program. Suppliers should allow 10 working days from receipt of technical proposals by USDA for notification of results of the evaluation of the canned stew products, quality control program, and process description. Following notification of acceptance of canned stew products and documentation, a supplier should promptly request a pre-award supplier assessment audit as outlined in Section I.D.5. A supplier is deemed eligible to bid after notification by the Contracting Officer.

Submission of samples and technical proposals are not binding on USDA. Actual purchases will be on a competitive bid basis as described in this Announcement and separately issued Invitations. The Invitations will specify the product type, offer date, closing time for receipt of bids, shipping period, destinations with any transportation restrictions, and any other provisions applicable to the proposed procurement, which are in addition to or different from those set forth herein (see Exhibit B for an example of an Invitation). Bids solicited under this Announcement and applicable Invitations are for delivery of products to USDA on a f.o.b. destination or f.a.s. vessel basis only.

Additional bid and contract provisions are included in the Annual Certifications, Representations, and Warranties (Appendix-1) and the General Terms and Conditions for the Procurement of Agricultural Commodities or Services, Revision 2, dated November 1984, and Amendments 1, 2, 3, and 4 dated October 1990, November 1990, August 1989, and March 1990, respectively, hereinafter referred to as USDA-1.

- B. Offerors are cautioned to carefully read this Announcement, Appendix-1, USDA-1, Invitations, applicable IDCR and applicable Instructions of the Agricultural Marketing Services' (AMS), Audit, Review, and Compliance (ARC) and Meat Grading and Certification (MGC) Branches. Failure to do so will be at the Offeror's risk. These documents are incorporated into the contract (see Section IV of this Announcement). Offerors are cautioned that statements made by persons other than the Contracting Officer are not binding on the Government unless confirmed in writing by the Contracting Officer.

C. Offer Prices and Evidence of Shipment

Offer prices must be quoted and delivery of product must be on the basis of f.o.b. railcars or trucks at destination or f.a.s. vessel as specified in the applicable Invitation. Certain destinations require delivery by TRUCK ONLY or RAIL ONLY and will be so identified in the Invitation. **All products whether shipped by truck, rail, or piggyback must be palletized and stretchwrapped in accordance with instructions contained in the applicable IDCR and the contractor's approved technical proposal, unless the Invitation and subsequent contract specifies "NO PALLETS."** Contractors may arrange for pallet exchange with consignee; however, USDA is in no way responsible for such arrangements. Offers submitted on a basis other than f.o.b. destination or f.a.s. vessel will be rejected as nonresponsive.

When notified of shipments, consignees may request upgrading of delivery services, for example, delivery within the consignee's premises or to a specific room within a building. Such delivery terms are beyond USDA contractual requirements. Any negotiations to upgrade services are between contractor and consignee and any additional charges for special delivery terms are between the consignee and the contractor. Any charges invoiced to USDA for additional delivery services will be denied.

When making deliveries to more than one destination from the same railcar, the quantities required at each stopoff must be placed in separate compartments under seal. Each railcar compartment must be stacked in a manner that will preclude containers shifting while in transit.

Contracts will be awarded on an f.o.b. destination or f.a.s. vessel basis with quality assurance determined by USDA through pre-award and post-award audits as described Section I.D.5. Contractor must furnish, in support of the contractor's invoice, a Certificate of Conformance (COC) (see Exhibit C) and a copy of the signed commercial bill of lading indicating the carrier's receipt of the product covered by the invoice for transportation to the destination specified in the contract. If transportation is provided by other than common carrier, the contractor must attach to the contractor's invoice a receipted copy of the appropriate shipping document evidencing date of delivery and quantity received at the destination specified in the contract.

D. Responsibility of Offeror

1. Annual Certifications, Representations, and Warranties

An offeror intending to submit bids must complete the Annual Certifications, Representations, and Warranties in Appendix-1 and return it to the Contracting Officer at the mailing address listed in Section II. A. of this Announcement prior to the submission of its initial bid. The Appendix must be signed by an Officer of the company. If there are any changes or revisions to the annual Appendix-1, offeror must submit an updated Appendix to the Contracting Officer or submit corrections or revisions prior to bid submission.

2. Standard Form 129--Solicitation Mailing List Application

An Offeror intending to submit bids must also complete a Solicitation Mailing List Application (SF-129) and return it to the Contracting Officer at the mailing address listed in Section II. A. of this Announcement prior to the submission of its initial bid.

All items (except Item 18) of the SF-129 must be completed (see Exhibit D). Offeror must also include the following information for Items 4, 8, 10, 14, 16B, 19, and 20:

Items 4 and 8: Employer's identification number and Food Safety and Inspection Service (FSIS) establishment number.

Item 8: Identify all affiliates of offeror (applicant as shown in 4) by providing full name, main office address, and employer's identification number and Tax Payer Identification Number (TIN) of the affiliates. An "affiliate" is defined on the back of the form.

Item 10: The product purchased by USDA the offeror is interested in supplying, weekly volume of production, capacity, and percent of capacity available for USDA contracts. Attach separate list if additional space is needed.

Item 14: Company's TIN.

Item 16B: Identify the warehouse to be used and its storage capacity.

Items 19 and 20: Must be an officer of the company.

Offeror must certify with each bid to the accuracy of the current SF-129 and Appendix-1 on file with the Contracting Officer.

3. Responsibility

A firm submitting an offer under this Announcement must be in compliance with the Federal standards for responsibility contained in Title 48 C.F.R. Subpart 9.1, USDA-1, this Announcement, and Invitations. A determination of the responsibility contained in Title 48.C.F.R. Subpart 9.1 must be made prior a firm submitting a technical proposal and sample evaluation. Facilities used in fulfilling USDA contracts must be operating under the provisions of the Federal Meat Inspection Act (FMIA), 21 U.S.C. 601 et seq., and the regulations issued thereunder.

Contractor must be registered under the Central Contractor Registry (CCR) System as prescribed in Title 48 C.F.R., Subpart 4.1104 and will certify in Appendix-1 on file with the Contracting Officer.

Offeror must ensure that all products offered for USDA purchases are in compliance with applicable contract and specification requirements. Offeror shall authorize the Contracting Officer's Technical Representative (COTR) unrestricted access to all records that pertain to USDA contracts.

4. Food Security Requirements

Contractor must have a written food security plan that provides for the security of a plant's production processes. The plan shall address the following areas: 1) food security plan management, 2) outside and inside security of the facility, 3) slaughter and processing, 4) shipping and receiving, 5) storage, 6) water and ice supply, 7) mail handling, and 8) personnel security. The plan will be subject to periodic review by the AMS, ARC Branch. See FSIS Security Guidelines for Food Processors at the following web address: <http://www.fsis.usda.gov/OA/topics/SecurityGuide.pdf>

5. Documentation and Assessment Requirements

To become an eligible supplier, the following must be submitted to the Contracting Officer at Agricultural Marketing Service, U.S. Department of Agriculture, Stop 0253, Room 2610-South Building, 1400 Independence Avenue, SW, Washington, D.C. 20250-0253, for evaluation and approval prior to bidding:

a. Technical Proposal Requirement:

- 1) Include a detailed description of each item to be offered and each of the production steps taken to meet or exceed the minimum product requirements set forth in the applicable IDCR. (Plan/Do)
- 2) Describe all the quality assurance methods used to verify conformance to all requirements. This will include the monitoring and measurements taken during the process to verify conformance with each requirement. All measurement results shall be recorded and made available to AMS. (Check)
- 3) Identify all corrective actions to be taken if deviations from contractual and specification requirements occur during production, and all preventative actions to be taken to preclude a reoccurrence. The contractor must have a segregation plan that assures product which does not conform to any of the requirements listed within this specification is not delivered to USDA canned stew purchase program. (Act)
- 4) The technical proposal shall follow the format as describe in Section II. E., Technical Proposal format. Offeror's proposal should be brief and concise.
- 5) The proposal shall be preceded by the following, as required by the template:
 - a) Table of contents listing the major areas as they appear in the technical proposal template; and
 - b) List of attachments, forms provided with the proposal, if applicable.
- 6) The technical proposal should be written in the following format:
 - a) Plan and Do - A description of the planning and production steps taken to meet each requirement.
 - b) Check - Describes all the quality assurance methods that will be used to verify conformances to each requirement. This will include the monitoring and measurement taken during the process (all measurements results shall be recorded and made available to AMS).
 - c) Act - Identifies all corrective actions to be taken if deviations from contractual and specification occur during production and all preventative actions taken to preclude reoccurrences.

b. Product Sample:

- 1) For each item offered, six (6) cans of product--the sample cans must be labeled to include the ingredient statement and Nutrition Facts Panel that conforms to the applicable IDCR (Attachment I and II).

Note: A supplier must submit canned samples that coincide with the product that is produced under the technical proposal.

The COTR will review each technical proposal to determine if the proposal and samples are adequate. The Contracting Officer will notify the supplier of the status of their sample(s) and technical proposal.

Once a supplier is notified by the Contracting Officer that samples and technical proposal meet the applicable criteria, the ARC Branch will contact the supplier to set up a supplier pre-award onsite capability assessment.

c. Assessment by the ARC Branch

After the sample(s) and the technical proposal(s) are evaluated and approved, an ARC Branch auditor will perform an onsite assessment of the facilities, processes, and quality control program used to produce the product(s) to determine the supplier's ability to meet contractual requirements. The following assessments will apply:

- 1) Pre-Award Onsite Capability Assessment

The pre-award onsite assessment (audit) will include, but not limited to, a thorough evaluation of the potential contractors' and subcontractors' facilities, processes, quality control program, equipment, procedures, and the appropriate documents and forms used during the production of the canned stew products. Documentation must support the production of a canned stew item that complies with the applicable IDCR and the potential contractor's approved technical proposal. In addition, the audit will consist of the review of records related to purchasing, receiving, production, quality control, inventory and shipping records, and interviews with management and production personnel.

Upon completion of the onsite capability assessment, the auditor will provide a report to the Contracting Officer for final review. After the sample(s) have met the evaluation criteria and the supplier has satisfactorily completed the pre-award onsite capability assessment, the supplier will receive written notification from the Contracting Officer of their eligibility to bid.

If the report states that the process is inadequate, the applicant will be notified by the Contracting Officer that they are ineligible to bid. The applicant will have an opportunity to correct identified deficiencies, modify their process and/or technical proposal, and resubmit for further consideration. Eligibility will depend on whether modifications demonstrate that the process is capable of delivering canned stew products in compliance with the applicable IDCR, the applicable assessment by USDA, and other applicable contractual requirements.

2) Post-Award Assessment

Eligible suppliers who receive contracts must have their technical proposals and supporting documentation readily available for review by AMS agents. Records may be maintained on hard copy or electronic media. However, records maintained as electronic media will be made available in printed form immediately upon request by AMS or its agents.

The ARC Branch will conduct an onsite audit of the contractor's and subcontractor's facilities and processes when production commences on the first contract awarded. Additional audits may be conducted as determined by the Contracting Officer, but not less than once per month for contractors with continuous contracts, or once per contract for intermittent contractors. At the discretion of the Contracting Officer, more frequent audits may be conducted when audit deficiencies are detected.

3) Post-Award Actions

Any deviation from contractual requirements will be immediately reported to the Contracting Officer. The Contracting Officer will notify the contractor regarding eligibility to continue to participate as a contractor.

Contractor will assure that the delivered product complies with the provisions of the applicable IDCR, the applicable assessment by USDA, and the contractor's technical proposal approved by the Contracting Officer.

5. Responsibility of Subcontractors/Suppliers

Contractor shall include, and subcontractor must meet, the responsibility terms in paragraph D.3. (Responsibility) above in every subcontract for supplies or services used by the contractor in fulfilling USDA contracts either directly or indirectly and obtain certification of responsibility as described in Appendix-1 to Announcement LS-14 from subcontractors and suppliers.

Contractors shall include, and subcontractors must comply with, the domestic products clause in I.F. in all subcontracts for meat, meat products, or other ingredients used in fulfilling any contracts awarded under this Announcement. Subcontractors or suppliers of beef or bison to be used in fulfilling contracts must be approved by the ARC Branch for compliance with the domestic origin and slaughter requirements prior to their performance on the contract.

Subcontractors or suppliers of canned stew products are (1) ineligible if they do not have a domestic product and slaughter programs approved by the ARC Branch; or if they are delivering late on USDA contracts or USDA approved subcontracts and late delivery is not due to causes beyond their control; and (2) nonresponsible if they are not operating under the provisions of the FMIA or have been suspended or debarred under the provisions of 48 C.F.R. Subpart 9.4, or if they have been suspended or debarred as an affiliate of any party who has been suspended or debarred under the provisions of 48 C.F.R. Subpart 9.4.

6. Past Performance

The offeror must certify to timely performance on current contracts and subcontracts in **Item 4** of the Certification Section under the Domestic Electronic Bid Entry System (DEBES) offer (Exhibit E). A determination that the late performance is beyond the control or negligence of the contractor or the contractor's subcontractor **must be made by the Contracting Officer prior to bid opening**. An offeror will be deemed nonresponsive if the offeror or any of its affiliates or subcontractors are delivering late on other contracts or subcontracts with USDA and the late delivery is not due to causes beyond the contractor's or the contractor's subcontractor's control. This provision, as it pertains to small business, is a deviation from 48 C.F.R. Subpart 19.6.

A false certification may result in rejection of the offer, suspension, and debarment by USDA, termination of the contract, liability for damages under the provisions of USDA-1, or criminal prosecution.

Offerors are cautioned NOT TO BID on product quantities exceeding a level that the offeror can reasonably expect to deliver in accordance with the contract schedule. On-time delivery is imperative because this product is used in school lunch and other USDA Federal food and nutrition programs. Late deliveries can cause serious and substantial damages to USDA and to recipient agencies, some of which cannot be compensated for by liquidated damages.

Contractor shipping late on contract(s) must immediately notify the Contracting Officer of late shipments. If the contractor intends to request an extension due to causes beyond the control or negligence of the contractor, such notice must be made to the Contracting Officer 3 business days in advance of a bid opening in which the contractor wants to bid. Notification and request for extension must include (1) documentary evidence of causes beyond contractor's control for each day requested, (2) a production report of completed and/or expected production including pounds and dates, and (3) actual delivery dates by Notice-to-Deliver (N/D) numbers (see Article 68 of USDA-1).

E. Buy American Certification

End products furnished including the meat and vegetables, must be of domestic origin as defined in I.F. below. This provision is a deviation from 48 C.F.R. part 25 and for the purposes of this Announcement supersedes Article 49 of USDA-1. Other minor ingredients, e.g., seasonings, must comply with Article 49 of USDA-1.

F. Domestic Products

All meat and vegetables used in fulfilling contracts awarded under Announcement LS-14 must be produced in the United States. United States produced (hereafter referred to as U.S.-produced) beef or bison means manufactured from livestock raised in the United States, its territories, possessions, Puerto Rico, or the Trust Territories of the Pacific Islands (hereinafter referred to as the United States). Vegetable products must be produced from U.S.

crops. U.S.-produced does not include imported cattle or bison imported for direct slaughter. If any beef, bison, or vegetables originate from sources other than the United States are processed or handled, the contractor will develop and maintain an identification and record system for these products to ensure they are segregated and not used to fulfill contracts awarded under this Announcement. Such segregation plan must be approved by the ARC Branch and made available to the ARC Branch agent. The contractor will maintain records including, but not limited to, invoices, production and inventory records evidencing product origin, and to make such records available for review by the Government in accordance with Article 76 of USDA-1.

Prior to performance on USDA contracts or subcontracts, contractors and meat subcontractors must obtain approval of its domestic origin program and slaughter requirements from the ARC Branch (see ARC Branch Instruction 1010 USDA Supplier Eligible Program) for requesting reviews.

The contractor agrees to include this domestic origin certification clause in its entirety in all subcontracts for meat or meat products and vegetables used in fulfilling any contracts awarded under this Announcement and obtain certification from each meat or meat products subcontractor that (1) the subcontractor has been approved by the ARC Branch for compliance with domestic origin and slaughter requirements; (2) the subcontractor will deliver only meat and meat products originating from U.S.-produced livestock as defined herein; and (3) meat produced under their approved domestic and slaughter plan will be shipped in containers labeled as “Domestic Only Product” on the principle display panel.

The subcontractor will deliver only canned stew products completely processed in the United States.

G. Cancellation, Rescission, and Recovery of Funds for Illegal or Improper Activity

1. If the Government receives information that a Contractor or a person has engaged in conduct constituting a violation of subsection (a), (b), (c), or (d) of section 27 of the Office of Federal Procurement Policy Act (41 U.S.C. 423) (the Act), as amended by section 4304 of the National Defense Authorization Act for Fiscal Year 1996 (P.L. 104-106), the Government may:
 - a. Cancel the solicitation, if the contract has not yet been awarded or issued; or
 - b. Rescind the contract with respect to which:
 - 1) Contractor or someone acting for the contractor has been convicted for an offense where the conduct constitutes a violation of subsection 27(a) or (b) of the Act for the purpose of either (a) exchanging the information covered by such subsections for anything of value; or (b) obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract; or
 - 2) The head of the contracting activity has determined, based upon a preponderance of the evidence, that the contractor or someone acting for the contractor has engaged in conduct constituting an offense punishable under subsection 27(e)(1) of the Act.

2. If the Government rescinds the contract under paragraph 1 of this clause, the Government is entitled to recover, in addition to any penalty prescribed by law, the amount expended under the contract.
3. The rights and remedies of the Government specified herein are not exclusive, and are in addition to any other rights and remedies provided by law, regulation, or under this contract.

H. Service of Protest

1. Protests, as defined in 48 C.F.R. part 33.101, that are filed directly with an agency, and copies of any protests that are filed with the General Accounting Office (GAO), shall be served on the Contracting Officer by obtaining written and dated acknowledgment of receipt from the Contracting Officer designated in Section II. A.
2. The copy of any protest shall be received by the Contracting Officer at the mailing address listed in Section II. A. within 1 day of filing a protest with the GAO.

II. SUBMISSION OF OFFERS

A. Where and How to Submit Offers

1. Electronic Submission of Offers

All Offers must be submitted electronically by accessing the DEBES. Browser Requirements for DEBES for electronic bidding are described in Attachment III. An offeror must request and receive a DEBES Logon ID in order to access the website (see Attachment IV for the form to request a logon ID). Only suppliers deemed responsible by the Contracting Officer will receive a DEBES Logon ID.

Access the DEBES website at: <https://pcsd.usda.gov:3077/mdbc1000.exe?>

Once connected to DEBES, follow the online procedures. Click on the “Help” button for detailed instructions on using the system or call 202-720-2650 for assistance.

AMS will not be responsible for any failure attributed to the transmission of the bid data prior to being accepted and stored on our web server including, but not limited, to the following:

- a. Any failure of the offeror’s computer hardware or software,
- b. Availability of your Internet service provider,
- c. Delay in transmission due to the speed of your modem, or
- d. Delay in transmission due to excessive volume of Internet traffic.

If an offeror’s Internet Service Provider (ISP) is not available, an offeror may submit a bid via facsimile (FAX). If an offeror plans to submit a bid via FAX, offeror **MUST** contact the Contracting Officer for approval prior to faxing offers.

NOTE: Exhibits E and F provide an example of how offers may be submitted by fax:

- e. Facilities for receiving offers by FAX are as follows:

FAX: (202) 720-0949 (24 Hours)

- f. Verification: **USDA-AMS-LS-CP-Branch**

(202) 720-2650 (6:30 a.m. - 4:00 p.m., Central Time, Monday - Friday)

Faxed offers, modifications, or withdrawals of offers must be addressed as follows:

Contracting Officer
Livestock and Seed Program
Agricultural Marketing Service
U.S. Department of Agriculture
Stop 0253 Room 2610-South Building
1400 Independence Avenue, SW
Washington, D.C. 20250-0253

B. Where and When to Submit Offers

Offers, modifications, or withdrawals of offers must be submitted to the Contracting Officer, Livestock and Seed Program, Agricultural Marketing Service (AMS), U.S. Department of Agriculture, Washington, D.C. 20250.

Offers, modifications, or withdrawals of offers under this Announcement must be received in the DEBES Lockbox or, if authorized by the Contracting Officer, faxed to the AMS, LS, CP Branch not later than 1:30 p.m., Central Time, on the date specified in the Invitation. Canned stew products will be purchased on a quarterly basis. Invitations will be issued by FAX and be available electronically through the USDA, AMS Commodity Procurement Home Page and posted on the DEBES Internet site. If the planned bid date falls on a nonworkday for USDA employees in the District of Columbia, offers, modifications, or withdrawals are to be received by 1:00 p.m., Central Time on the next succeeding business day. Whether an offer, modification, or withdrawal is received within the time limitation will be determined by the last submission time recorded in DEBES or electronically captured at the AMS, LS, CP Branch in the event a bid is faxed.

NOTE: Once USDA has established an external portal site, invitations will no longer be sent by FAX, unless requested by the supplier or USDA is experiencing technical difficulties at the portal site. Eligible suppliers will be granted access to the site and will be able to subscribe to the appropriate folder. USDA will notify suppliers through a Notice to Trade.

C. Shipping Periods

Contracts will be awarded on a shipping period basis. The shipping period will be a specific period identified with each invitation to be issued under this Announcement. Bidders are cautioned to refer to the applicable Invitation prior to bidding.

Shipping periods will be on the first half and second half of the month (e.g., June 1-15 and June 16-30).

D. Purchase Units

The purchase unit size for the various canned stew products purchased is shown in Exhibit A. The quantity offered on bids must be in purchase unit increments. An offeror may bid the entire quantity on the Invitation or a greater amount, but not less than one purchase unit, i.e. 36,000 pounds. Only one offer price may be quoted to any delivery point listed from each shipping point, including combined destinations bracketed as one line item. Offerors may rearrange the destination sequence on these combined delivery units.

E. What to Submit

Electronic Bid:

An offer must include each of the following items:

Section 1--General

1. Name, phone number, and complete address and zip code of Offeror (include both street and mailing address if different).
2. Identify submission as a bid.
STATE: Bid--ANNOUNCEMENT LS-14, Invitation No._.
3. Name and street address including zip code of (a) final processing point and (b) shipping point.

Section 2--Offer Form

1. Item number listed on applicable Invitation, destination, and price per pound delivered to specific destination, segregated by product type if more than one is requested.

NOTES: For bids other than electronic, offerors may, at their own risk, exclude name of destination. Errors in item number(s) will not be apparent to Contracting Officer.

Quote only one delivered price per pound for each destination or multiple destinations listed as one item number. If more than one price per item is quoted, the line item will be ruled nonresponsive.

The offeror must not indicate the number of purchase units by destination. Estimated number of purchase units by destination will be listed on the Invitation. USDA may adjust the quantities listed on the Invitation based on offerings, market conditions, and/or program requirements.

Transportation restrictions will be shown on the Invitations.

The offeror may submit offers for as many destinations as desired. The maximum quantity to be awarded is determined by the constraints quoted in Section 3, Constraints, of the bid.

Offer prices may be quoted up to four places to the right of the decimal point. **If other than four places, any digit past the fourth will automatically be dropped.**

Section 3--Constraints

1. State maximum quantity overall for each commodity type (if applicable) to be awarded and/or maximum quantity overall for both in number of purchase units and equivalent net pounds for shipment to required destinations between (date) and (date) .

NOTES: If offering for more than one processing point, be sure to indicate the number of units offered for each commodity type and/or maximum quantity overall for each processing point.

Maximum quantity offered may be greater than demand shown on the Invitation.

Total maximum quantity overall for specific product types or Invitation is optional. If total overall is not quoted, AMS may award up to the maximum for each type.

State the applicable shipping period(s) associated with the Invitation.

Section 4--Certifications

1. For this bid, your company is designated as: (choose one)

- ☐ Large Business
- ☐ Large Minority Business
- ☐ Large Woman-Owned Business
- ☐ Large Woman-Owned Minority Business
- ☐ Small Business
- ☐ Small Minority Business
- ☐ Small Disadvantaged "Not 8A"
- ☐ Small Woman-Owned Minority
- ☐ Small Woman-Owned "Not 8A"
- ☐ "8a" Small Woman-Owned
- ☐ "8a" Small Disadvantaged

NOTE: For bids submitted electronically, if default designation is incorrect, please choose correct designation and notify Contracting Officer.

2. By submitting this bid, Offeror certifies it HAS read and DOES agree to the terms of LS-14; Appendix-1; Inv. ____; Exhibit A dated April 2004, applicable IDCR, Contractor's technical proposal approved by the Contracting Officer; AMS audit team's initial report; USDA-1, Rev. 2, and Amds. 1, 2, 3, and 4.

☐ HAS
☐ DOES
3. (a) Annual Representations, Certifications, and Warranties (Appendix-1) submitted to the Contracting Officer are current, accurate, and complete. Submitted to Contracting Officer (mm/dd/yyyy): _____

(b) If Appendix HAS been amended, enter date amended: _____ or N/A.
4. Offeror certifies that the SF-129 on file with the Contracting Officer is accurate and part of this offer.

☐ Does
☐ Does Not
5. All product required under any existing USDA contract(s) or subcontract(s) with a Not Later Than Date prior to this bid opening HAS been delivered?

☐ Has
☐ Has Not
☐ Has Not, But Has Notified C/O
☐ No Existing Contracts
6. By submitting this bid, offeror certifies that all product does conform with the applicable IDCR and no changes to the production process or technical proposal have occurred without proper approval by the Contracting Officer.

☐ Does
7. Show name, title, fax number, and phone number of person submitting this bid (must be an authorized company representative).

Technical Proposal:

The following procedures establish the acceptable minimum requirements for the format and content of the proposals:

1. The Government has provided a technical proposal format which is to be used in preparing the technical proposal. (See **Exhibit G**) The offeror shall submit technical proposals in both hard copies and an electronic format either on disk (3.5" diskette or CD) or e-mail. The technical proposal shall be saved in the portable document format (PDF). This format and electronic form provided will aid in the evaluation of the technical proposal.

2. Offers must submit diskettes or CDs in sealed disk mailers that have been signed by the same individual signing the original paper copy of the technical proposal. Offers submitting the electronic PDF format by e-mail must be sent by the same individual signing the original paper copy of the technical proposal. By signing both the technical proposal and disk mailer, this individual will be attesting to the data in both formats being identical. The seals on this information will be broken by the Contracting Officer only. The technical proposal must be submitted by an authorized agent of the company, as evidenced by the SF-129 on file with the Contracting Officer.
3. The offeror will submit the appropriate number of copies as stated in the table below:

Description	Number of Hard Copies	Number of Diskettes/CD's
Technical Proposal 1. 8 ½" x 11" White Paper; 2. One sided-Single spaced (12 point font); 3. Proposal to be provided in protected document holder; and 4. Proposal submitted with all capital letters will be returned to offeror without further review.	3 (Original + 2 copies)	1

4. While it is not the desire of the Government to penalize an offeror for noncompliance with formatting instructions, technical evaluators may have difficulty grading the technical proposal to the fullest extent possible. Technical evaluators will not be required to search other subsections or sections of the offeror's technical proposal for information requested for evaluation.

Note: All hard copies and diskettes/CDs shall be mailed to the Contracting Officer at the address stated in Section II. A.

Technical Proposal Revisions

Changes to an offeror's technical proposal may be submitted based on the Government's Amendments, Clarification Request, pre-award and post-award assessments, and at the request of the offeror. Maintenance of the integrity and clarity of each technical proposal is critical. All technical proposal revisions must meet the following criteria:

- 1) Any changes to a technical proposal made by the offeror after its initial submittal shall be accomplished by resubmitting replacement pages or an entire technical proposal package. The offeror shall include the revision date and the appropriate page number(s). A cover letter must be submitted with the changes identified and an explanation of the need for the change.
- 2) Must be submitted in the same number of copies as the initial technical proposal and must have the same information provided on revised diskettes/CDs. The revised diskettes/CDs should contain only the pages that are being changed. Additional pages should be numbered using a page number suffix (e.g. 1.1, 1.2, 1.a., 1.b).

- 3) Submit changes to the technical proposals as a complete page change for each page on which a change occurs. Changes from the original page shall be on blue colored paper and the changes in text shall be **highlighted** or **bolded** and deletions in ~~strikeout~~.

III. ACCEPTANCE OF OFFERS

The USDA will award contracts to offerors deemed eligible and responsible and whose bids conform to the Announcement and the applicable Invitation and whose bids are most advantageous to the Government in terms of, but not limited to, price, quantity needs at the specified destinations, and cost. The USDA requires a minimum acceptance period of 7 calendar days. Acceptance of offers will be made by FAX filed at Washington, D.C., not later than midnight, local time, the seventh day following the day for receipt of offers. The official time of award is the date and time stamped on the contract faxed from the AMS, LS, CP Branch. Transmission of the contract is the official notice that the contract has been awarded. A notice of award will also be issued in the form of a Food Purchase Report (FPR) posted at the Department's Office of Information, News Division, after **1:00 p.m., Central Time** on the day of acceptance. Information on awards will be available by telephone to bidders and interested parties promptly following the posting of the FPR or electronically through the **USDA, AMS Commodity Procurement Home Page** (see Notice attached). Inquiries may be made to a USDA-AMS Market News office or the Contracting Officer.

Failure to accept an offer will constitute rejection. Filing of the acceptance wire as specified above will result in a binding contract without further action by either party. The actual time of award described herein deviates from 48 C.F.R. 14.408-1.

IV. PROVISIONS OF CONTRACT

The contract consists of Announcement LS-14; the applicable Invitation; applicable IDCR, applicable ARC Branch instructions; contractor's or subcontractor's (manufacturer's) technical proposal approved by the Contracting Officer, the AMS audit team's initial report, contractor's offer including SF-129 and Appendix 1; the acceptance by USDA; and USDA-1 except Articles 34, 49, 50, 64(c), and all of Part E.

If the provisions of contract documents are not consistent, the following priority order will prevail: Invitation, Announcement, applicable IDCR, contractor or subcontractor's technical proposal approved by the Contracting Officer, AMS Auditor's initial report, Appendix-1, and USDA-1.

V. PRODUCT ITEM DESCRIPTION AND CHECKLIST OF REQUIREMENTS AND CERTIFICATION SERVICES

- A. Specifications for canned stew products will be set forth in the applicable IDCR. If documents are amended, appropriate amendments must be referenced.
- B. Compliance with processing requirements as described in the applicable IDCR and contractor/subcontractor's process documentation and quality control program will be verified through audits by AMS agents. The cost of all audits, including the pre-award, onsite assessment, must be borne by the contractor.
- C. Questions concerning charges and the availability of AMS auditors should be discussed with the ARC Branch in Washington, D.C., at (202) 720-9759.

VI. LOSS DUE TO DETERIORATION, SPOILAGE, OR RECALL

A. Loss Due to Deterioration or Spoilage

The contractor will be liable for losses due to deterioration or spoilage for which he or she is responsible, which are discovered within 9 months of the delivery date to USDA, in accordance with the provisions of Article 61 of USDA-1.

B. Liabilities Due to Product Recalled for Health or Safety Risk

In accordance with Article 60 of USDA-1, the contractor shall be held liable for failure of the commodity to meet all of the contract and specifications requirements. In the event, product is recalled due to a health or safety risk, the contractor is responsible for removal and replacement of recalled products and reimbursement of State and local costs incurred as a result of the recall, as outlined in the Food and Nutrition Service's Commodity Holds and Recall Process. These costs include, at a minimum, storage, transportation, processing, and distribution of the commodities.

If product under contract is to be delivered to a facility for further processing under contract with a State and the product is recalled, it will be handled in accordance with the Food and Nutrition Service's Commodity Holds and Recall Process. A copy of the report can be obtained at the following web address: <http://www.fns.usda.gov/fdd/foodsafety/hold-recallpros.pdf>

VII. CONTRACTOR CERTIFICATE OF CONFORMANCE AND CHECKLOADING

The contractor will not ship the product before receipt of shipping instructions from the Farm Service Agency (FSA) Kansas City Commodity Office (KCCO). Inspection as required by Article 54 of USDA-1 will be performed by AMS through supplier pre-award assessment and post award audits described in this Announcement and applicable IDCR. Contractor shall deliver intact lots whenever possible and split or combine lots only when necessary.

Contractor will perform checkloading examinations as described in the applicable IDCR's, at the time of shipment and issue a COC and a contractor's checkloading certificate of shipment and include with each shipment. The contractor's checkloading certificate will contain the following information:

1. Contract Number
2. Notice to Deliver Number
3. Name of product
4. Shipping Date
5. Production lot number(s), date each lot was produced, and applicable can codes.
6. Count of shipping containers and total projected net weight in each production lot that represents the delivery unit specified in the applicable IDCR.
7. Identity of car or truck (car numbers and letters, seals, truck license, etc.) as applicable
8. Count and projected net weight verified.
9. Signature of company official responsible for checkloading.

VIII. SHIPMENT--TRANSFER OF TITLE

A. Shipping Requirements

Shipment must be made in accordance with this Announcement, the applicable Invitation, Articles 56 and 64(b) of USDA-1, and the N/D (Form KC-269) issued by KCCO. The contractor must closely follow delivery notification instructions contained in the N/D. Such notification of shipment is vital to proper execution of shipment, particularly in cases of minimal transit time.

The contractor must notify State distributing agencies and consignees of shipment. For rail shipment, notification must be made on the day of shipment. For truck shipment, notification of the estimated arrival time should be made as far in advance of delivery as possible. In addition, for truck or piggy-back shipment, the contractor must request and keep scheduled appointments. **Unloading appointments for truck or piggy-back deliveries or shipment must be requested from the consignee contact party(ies) at least 24 hours in advance of shipping.** The contractor must include with each shipment the contractor's checkloading certificate, the COC, and a signed bill of lading or other commercial documentation evidencing the quantity shipped with each delivery. If product is shipped in other than a commercial carrier and a bill of lading is not issued, the contractor's checkloading certificate must document quantity shipped and contractor must obtain a commercial receipt (i.e., warehouse receipt) signed by recipient agent evidencing date of shipment and quantity of product received.

B. Tolerances

No tolerance from the quantity called for in the shipping instruction is permitted.

C. Early Shipping Requests

Requests for permission to ship in advance of the "Not-Earlier-Than" date given in the N/D must be made to KCCO and approval will be granted if consignee is willing to accept product early and provides to KCCO the assurances required by KCCO of that arrangement.

D. Transfer of Title

Title and risk of loss will pass to USDA on the date of receipt of the product at the destination specified in the contract, as evidenced by suitable dated documentation such as the **commercial bill of lading**, warehouse receipt, dock receipt, or other similar signed and dated document evidencing shipping. If the contractor has the product in storage and transfer of title is requested, title will pass to USDA as evidenced by the **commercial bill of lading**. The contractor is responsible for any shortage or damages as evidenced by the **commercial bill of lading**, **FNS-57 report**, or other commercial receipt evidencing shipping of product.

IX. LIQUIDATED DAMAGES

A. Compensation to Contractor for Late Mailing of Notice-to-Deliver

Liquidated damages for delay in shipment due to late mailing of N/D will be payable in accordance with Article 65 of USDA-1 and will be at the rate of 25 cents per hundredweight **net per calendar day**.

B. Compensation to USDA for Delays in Shipment

Timely delivery is important to fulfill the nutritional and dietary needs of persons consuming canned stew products under the Child Nutrition and other Federal food and nutrition programs and for the efficient and proper administration of these programs. Liquidated damages for delay in shipment are payable at the rate of 25 cents per hundredweight net per day in accordance with Article 67 of USDA-1. For purposes of assessing liquidated damages for delay in shipment, the date shown on the contractor's checkloading certificate is considered to be the date of shipment.

X. INVOICES AND PAYMENT

A. Shipping Period Contracts

Invoicing and payment will be handled in accordance with Article 70 of USDA-1. A properly prepared invoice consists of the following:

1. Contractor Checkloading

- (1) Invoicing as provided for on the N/D (Form KC-269) or commercial invoice form;
- (2) Commercial bill of lading or other commercial receipt signed by recipient agent evidencing date of shipping and quantity of product received;
- (3) Original of contractor's checkloading certificate; and
- (4) Copy of the contractor's Certificate of Conformance.

If a commercial bill of lading signed by carrier's agent is not issued, the invoice package must include a warehouse receipt signed by recipient agent evidencing date of shipment and quantity of product received.

Any loss in transit will be determined by an Over, Short, or Damage Report (FNS-57) filed by recipient. KCMO will advise contractor of discrepancy and recover loss by setoff from future payments or process a claim.

Contractors are encouraged to instruct carriers to return bills of lading or other commercial receipts signed by recipient agents evidencing the date and quantity of product received to avoid conflicts. If there is a conflict, the bill of lading signed by the recipient representative will prevail unless the discrepancy is due to damage not discernable at time of delivery.

B. Invoice Mailing & Interest

1. The invoice package must be mailed or delivered to Kansas City Management Office (KCMO) at the address listed in Section XI of the Announcement. The outside of the package should be marked:

**"Prompt Pay Provisions Apply--Meat Product
Attn: Vendor Invoice Payment Section"**

2. Interest will be paid in accordance with the provisions of the Prompt Payment Act if payment is made beyond the seventh day after the date of shipping. For payment purposes, the date of shipping will be the receipt date by KCMO of a properly prepared invoice.

C. Electronic Payment

USDA payments must be made directly to a financial banking institution. To receive payments electronically, complete the attached Form SF-3881, ACH Vendor Payment Enrollment Form and submit to the Kansas City Management Office, Commodity Financial Operations Division, Inventory Control Branch; Telephone (816) 926-6988 or access the form via the Internet at: <https://pcsd.usda.gov:3076/finance/>.

USDA will no longer issue a paper copy of the disbursement statement. Complete the attached address information form, which identifies payment disbursement statement address as well as other information needed.

XI. INQUIRIES

Inquiries pertaining to this solicitation and applicable documents should be directed to:

INSTRUCTIONS

Persons or concerns wishing to be added to a particular agency's bidder's mailing list for supplies or services shall file this properly completed Solicitation Mailing List Application, together with such other lists as may be attached to this application form, with each procurement office of the Federal agency with which they desire to do business. If a Federal agency has attached a Supplemental Commodity list with instructions, complete the application as instructed. Otherwise, identify in Item 10 the equipment, supplies, and/or services on which you desire to bid. (Provide Federal Supply Class or Standard Industrial Classification codes, if available.) The application shall be submitted and signed by the principal as distinguished from an agent, however constituted.

After placement on the bidder's mailing list of an agency, your failure to respond (submission of bid, or notice in writing, that you are unable to bid on that particular transaction but wish to remain on the active bidder's mailing list for that particular item) to solicitations will be understood by the agency to indicate lack of interest and concurrence in the removal of your name from the purchasing activity's solicitation mailing for items concerned.

SIZE OF BUSINESS DEFINITIONS
(See Item 11A.)

a. Small business concern - A small business concern for the purpose of Government procurement is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is competing for Government contracts, and can further qualify under the criteria concerning number of employees, average annual receipts, or the other criteria, as prescribed by the Small Business Administration. (See Code of Federal Regulations, Title 13, Part 121, as amended, which contains detailed industry definitions and related procedures.)

b. Affiliates - Business concerns are affiliates of each other when either directly or indirectly (i) one concern controls or has the power to control the other, or (ii) a third party controls or has the power to control both. In determining whether concerns are independently owned and operated and whether or not affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationship. (See Items 8 and 11A.)

c. Number of employees - (Item 11B) In connection with the determination of small business status, "number of employees" means the average employment of any concern, including the employees of its domestic and foreign affiliates, based on the number of persons employed on a full-time, part-time, temporary or other basis during each of the pay periods of the preceding 12 months. If a concern has not been in existence for 12 months, "number of employees" means the average employment of such concern and its affiliates during the period that such concern has been in existence based on the number of persons employed during each of the pay periods of the period that such concern has been in business.

TYPE OF OWNERSHIP DEFINITIONS
(See Item 12.)

a. "Disadvantaged business concern" - means any business concern (1) which is at least 51 percent owned by one or more socially and economically disadvantaged individuals; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more socially and economically disadvantaged individuals; and (2) whose management and daily business operations are controlled by one or more of such individuals.

b. "Women-owned business" - means a business that is at least 51 percent owned by a woman or women who are U.S. citizens and who also control and operate the business.

TYPE OF BUSINESS DEFINITIONS
(See Item 13.)

a. "Manufacturer or producer" - means a person (or concern) owning, operating, or maintaining a store, warehouse, or other establishment that produces, on the premises, the materials, supplies, articles or equipment of the general character of those listed in Item 10, or in the Federal Agency's Supplemental Commodity List, if attached.

b. "Service establishment" - means a concern (or person) which owns, operates, or maintains any type of business which is principally engaged in the furnishing of nonpersonal services, such as (but not limited to) repairing, cleaning, redecorating, or rental of personal property, including the furnishing of necessary repair parts or other supplies as a part of the services performed.

- **COMMERCE BUSINESS DAILY** - The Commerce Business Daily, published by the Department of Commerce, contains information concerning proposed procurements, sales, and contract awards. For further information concerning this publication, contact your local Commerce Field Office.

ITEM DESCRIPTION AND CHECKLIST OF REQUIREMENTS FOR CANNED BEEF STEW -- JUNE 2002 CODE - A590

ITEM DESCRIPTION

- | | |
|-----------------------|---|
| Item | - Beef stew must contain discernable chunks of beef, carrots and potatoes in gravy. One additional vegetable is permitted. |
| Fat/Sodium | - Fat must not exceed 5 g (grams) per 100 g serving. Sodium level will not exceed 415 mg per 100 g serving. |
| Packaging/
Packing | - Individual cans of beef stew will have a net weight of 24 ounces. Twenty-four cans will be unitized to a net weight of 36 pounds. |
- Agricultural Marketing Service (AMS) may specify individual cans to have a net weight of 40 ounces (A product code will be issued). Twelve cans will be unitized to a net weight of 30 pounds.

CHECKLIST OF REQUIREMENTS

Beef stew must be produced in accordance with Food Safety Inspection Service (FSIS) regulations and this checklist of requirements below.

MATERIALS

Contractors are responsible for providing sufficient product traceability and must have records to verify the source of raw materials used in each lot of product. All vegetables and other significant ingredients (more than 1percent) shall be derived from U.S. produced products.

BEEF

- Beef must originate from U.S. produced livestock and will be verified in accordance with Audit, Review, and Compliance (ARC) Branch Instructions for Domestic Origin Verification and Material Requirements.
- Beef must originate from slaughter establishments that handle non-ambulatory (cattle that are unable to walk under their own power) commonly known as "downers" in accordance with FSIS Directive 6900.1R1 - Humane Handling of Disabled Livestock, issued 11/02/98. Carcasses originating from such animals must be segregated and the product from them cannot be included in USDA purchased ground beef.
- Beef must originate from slaughter establishments that do not use direct air-injected pneumatic stunners.
- Beef that is mechanically separated from bone with automatic deboning systems, advanced lean (meat) recovery (AMR) systems or powered knives, is not allowed.
- The beef shall appear as discernable chunks in the finished product.

VEGETABLES

Carrots and potatoes must be the primary vegetables as listed on the ingredient statement. One additional vegetable is permitted. All vegetables shall be of size so that they are discernible in the finished product.

OTHER INGREDIENTS

Seasonings and ingredients used for flavoring and gravy must be similar to those normally used for commercially marketed beef stew.

FINISHED PRODUCT FAT AND SODIUM LIMITATIONS

Fat - The fat content must not exceed 5 percent (no more than 5 g per 100 g serving).

Declared fat content will be stated on the nutrition facts panel on each can label according to FSIS nutritional labeling regulations.

Percent fat = (Total fat ÷ Serving Size) x 100.

Sodium - Sodium level must not exceed 415 mg per 100 g serving.

PREPARATION FOR SHIPPING

1. PACKAGING AND PACKING

Individual cans of beef stew will have a net weight of 24 ounces. Twenty-four cans will be unitized to a net weight of 36 pounds. Each shipping unit will consist of 1,000 shipping containers with a net weight of 36,000 pounds (16,330 kg).

When specified by AMS, individual cans will have a net weight of 40 ounces. Twelve cans will be unitized to a net weight of 30 pounds. Each shipping unit will consist of 1,200 shipping containers with a net weight of 36,000 pounds (16,330 kg).

All cans will be unitized by packing into new fiberboard shipping containers, placing on fiberboard trays with plastic shrink wrap or plastic shrink wrap only. Only one size and style of unitized containers may be offered in an individual shipping unit.

2. LABELING

Shipping containers and cans will be labeled to include all information required by FSIS regulations.

3. PALLETIZED UNIT LOADS

Unless otherwise specified in the invitation, all truck, rail, and piggyback shipments of product shall be unitized by stacking the shipping containers on pallets. The shipping containers shall be held firmly in place by applying plastic stretch-wrap as tightly as possible around all of the tiers stacked on the pallet.

Pallets shall be flush, 48 inches long by 40 inches wide, stringer or block design, partial or full four-way entry, nonreversible, and suitable for use in the shipment of approximately 2,000 pounds of food product.

Pallet loads shall be stacked in a manner that minimizes the overhang of the shipping containers over the edges of the pallets and exposes the principle shipping container display panel of all boxes to facilitate certification examinations.

4. TRACEABILITY AND SHIPMENT

All cans shall bear a code that is traceable to a production lot and date. All product must be delivered to AMS destinations under seal.

WARRANTY AND COMPLAINT RESOLUTION

A warranty and customer service clause that includes customer complaint resolution procedures shall be included in the technical proposal. These procedures will be used to resolve product complaints from recipient agencies or AMS.

APPROVED

LSP, STDZ BRANCH – Room 2603
September 17, 2003

ITEM DESCRIPTION AND CHECKLIST OF REQUIREMENTS FOR CANNED BISON STEW – JULY 2003 CODE – A611

I. ITEM DESCRIPTION

- Item - Bison stew must appear as discernable chunks of bison, carrots and potatoes in gravy. One additional vegetable is permitted.
- Fat/Sodium - Fat must not exceed 5 g (grams) per 100 g serving. Sodium level will not exceed 415 mg per 100 g serving.
- Cans/cases - Cans - 24 ounces net weight.
Cases - 24 cans will be unitized to a net weight of 36 pounds.

AMS may specify individual cans to have a net weight of 40 ounces (A product code will be issued). 12 cans will be unitized to a net weight of 30 pounds.

II. CHECKLIST OF REQUIREMENTS

Bison stew must be produced in accordance with Food Safety Inspection Service (FSIS) regulations and this checklist of requirements below.

A. MATERIALS

Contractors are responsible for providing sufficient product traceability and must have records to verify the source of raw materials used in each lot of product. All vegetables and other significant ingredients (more than 1 percent) shall be derived from U.S. produced products.

1. BISON

- a) Origin and Slaughter Requirements – The following requirements shall be verified by the ARC 1010 Procedure, USDA Supplier Eligibility Program
<http://www.ams.usda.gov/lsg/arc/arc1010.pdf>.

Bison shall originate from slaughter facilities that are listed on the OFFICIAL LISTING OF ELIGIBLE SUPPLIERS FOR USDA PURCHASE PROGRAMS
<http://www.ams.usda.gov/lsg/arc/ELDPS.pdf> for origin and slaughter.

- (1) Bison must originate from U.S. produced livestock and will be verified in accordance with ARC Instructions for Domestic Origin Verification.
- (2) Bison must originate from slaughter establishments that handle non-ambulatory (cattle that are unable to walk under their own power) commonly known as "downers" in accordance with FSIS Directive 6900.1R1 - Humane Handling of Disabled Livestock, issued 11/02/98. Carcasses originating from such animals must be segregated and the product from them cannot be included in USDA purchased ground Bison.
- (3) Bison must originate from slaughter establishments that do not use direct air-injected pneumatic stunners.
- (4) Spinal cord tissue shall be removed during the slaughter process.

b) Physical Characteristics.

- (1) Bison that is mechanically separated from bone with automatic deboning systems, advanced lean (meat) recovery (AMR) systems or powered knives, is not allowed.
- (2) The bison chunks must be discernable in the finished product and will be produced from boneless bison which may have been diced or ground and formed.

2. VEGETABLES

Carrots and potatoes must be the primary vegetables as listed on the ingredient statement. One additional vegetable is permitted. All vegetables shall be of size so that they are discernible in the finished product.

3. OTHER INGREDIENTS

Seasonings and ingredients used for flavoring and gravy must be similar to those normally used for commercially marketed Bison stew.

B. FINISHED PRODUCT FAT AND SODIUM LIMITATIONS

1. FAT

The fat content must not exceed 5 percent (no more than 5 g per 100 g serving). Declared fat content will be stated on the nutrition facts panel on each can label according to FSIS nutritional labeling regulations.
 $\text{Percent fat} = (\text{Total fat} \div \text{Serving Size}) \times 100.$

2. SODIUM

Sodium level must not exceed 415 mg per 100 g serving.

C. PREPARATION FOR DELIVERY

1. PACKAGING AND PACKING

Individual cans of Bison stew will have a net weight of 24 ounces. Twenty-four cans will be unitized to a net weight of 36 pounds. Each delivery unit will consist of 1,000 shipping containers with a net weight of 36,000 pounds (16,330 kg).

When specified by the AMS, individual cans will have a net weight of 40 ounces. Twelve cans will be unitized to a net weight of 30 pounds. Each delivery unit will consist of 1,200 shipping containers with a net weight of 36,000 pounds (16,330 kg).

All cans will be unitized by packing into new fiberboard shipping containers, placing on fiberboard trays with plastic shrink wrap or plastic shrink wrap only. Only one size and style of unitized containers may be offered in an individual shipping unit.

2. LABELING

Shipping containers and cans will be labeled to include all information required by FSIS regulations.

3. PALLETIZED UNIT LOADS

Unless otherwise specified in the invitation, all truck, rail, and piggyback shipments of product shall be unitized by stacking the shipping containers on pallets. The shipping containers shall be held firmly in place by applying plastic stretch-wrap as tightly as possible around all of the tiers stacked on the pallet.

Pallets shall be flush, 48 inches long by 40 inches wide, stringer or block design, partial or full four-way entry, nonreversible, and suitable for use in the shipment of approximately 2,000 pounds of food product.

Pallet loads shall be stacked in a manner that minimizes the overhang of the shipping containers over the edges of the pallets and exposes the principle shipping container display panel of all boxes to facilitate certification examinations.

4. TRACEABILITY AND SHIPMENT

All cans shall bear a code that is traceable to production lot and date. All product must be delivered to AMS destinations under seal.

D. WARRANTY AND COMPLAINT RESOLUTION

A warranty and customer service clause that includes customer complaint resolution procedures shall be included in the technical proposal. These procedures will be used to resolve product complaints from recipient agencies or AMS.

Browser Requirements For DEBES

Netscape 4.07 or above

Internet Explorer 5.0 or above

The browser must be capable of handling 128 bit encryption. To determine this:

In IE, go to **Help/About Internet Explorer**. The display will show:

Cipher Strength: 128-bit

If it does not, you will need to download a new version of the browser from Microsoft at <http://www.microsoft.com>.

In Netscape, go to **Help/About Communicator**. The display will show:

**This version supports U.S. security with
RSA Public Key Cryptography, MD2, MD5,
RC2-CBC, RC4, DES-CBC,
DES-EDE3-CBC.**

If it does not, you can download a new version of the browser from Netscape at <http://home.netscape.com/download/index.html?cp=djucc4>. Choose the 128 bit Strong Encryption* version for your download.

The **Production** site URL address is:

<https://pcsd.usda.gov:3077/mdbc1000.exe?>

The **Vendor Practice** site URL address is:

<https://pcsd.usda.gov:3050/mdbc1000.exe?>

Proxy Servers

Most connection problems are the result of improper browser version, not using 128 bit encryption, and connecting through your corporate proxy server. The proxy server must be set up to allow HTTPS protocol through the appropriate port; Vendor Practice is port 3050 and Production is port 3077.

INSTRUCTIONS FOR COMPLETING SF-3881 FORM

1. Agency Information Section - Federal agency prints or types the name and address of the Federal program agency originating the vendor/miscellaneous payment, agency identifier, agency location code, contact person name and telephone number of the agency. Also, the appropriate box for ACH format is checked.
2. Payee/Company Information Section - Payee prints or types the name of the payee/company and address that will receive ACH vendor/miscellaneous payments, social security or taxpayer ID number, and contact person name and telephone number of the payee/company. Payee also verifies depositor account number, account title, and type of account entered by your financial institution in the Financial Institution Information Section.
3. Financial Institution Information Section - Financial institution prints or types the name and address of the payee/company's financial institution who will receive the ACH payment, ACH coordinator name and telephone number, nine-digit routing transit number, depositor (payee/company) account title and account number. Also, the box for type of account is checked, and the signature, title, and telephone number of the appropriate financial institution official are included.

BURDEN ESTIMATE STATEMENT

The estimated average burden associated with this collection of information is 15 minutes per respondent or recordkeeper, depending on individual circumstances. Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Financial Management Service, Facilities Management Division, Property and Supply Branch, Room B-101, 3700 East-West Highway, Hyattsville, MD 20782 and the Office of Management and Budget, Paperwork Reduction Project (1510-0056), Washington, DC 20503.

INSTRUCTIONS

Persons or concerns wishing to be added to a particular agency's bidder's mailing list for supplies or services shall file this properly completed Solicitation Mailing List Application, together with such other lists as may be attached to this application form, with each procurement office of the Federal agency with which they desire to do business. If a Federal agency has attached a Supplemental Commodity list with instructions, complete the application as instructed. Otherwise, identify in Item 10 the equipment, supplies, and/or services on which you desire to bid. (Provide Federal Supply Class or Standard Industrial Classification codes, if available.) The application shall be submitted and signed by the principal as distinguished from an agent, however constituted.

After placement on the bidder's mailing list of an agency, your failure to respond (submission of bid, or notice in writing, that you are unable to bid on that particular transaction but wish to remain on the active bidder's mailing list for that particular item) to solicitations will be understood by the agency to indicate lack of interest and concurrence in the removal of your name from the purchasing activity's solicitation mailing for items concerned.

SIZE OF BUSINESS DEFINITIONS (See Item 11A.)

a. Small business concern - A small business concern for the purpose of Government procurement is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is competing for Government contracts, and can further qualify under the criteria concerning number of employees, average annual receipts, or the other criteria, as prescribed by the Small Business Administration. (See Code of Federal Regulations, Title 13, Part 121, as amended, which contains detailed industry definitions and related procedures.)

b. Affiliates - Business concerns are affiliates of each other when either directly or indirectly (i) one concern controls or has the power to control the other, or (ii) a third party controls or has the power to control both. In determining whether concerns are independently owned and operated and whether or not affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationship. (See Items 8 and 11A.)

c. Number of employees - (Item 11B) In connection with the determination of small business status, "number of employees" means the average employment of any concern, including the employees of its domestic and foreign affiliates, based on the number of persons employed on a full-time, part-time, temporary or other basis during each of the pay periods of the preceding 12 months. If a concern has not been in existence for 12 months, "number of employees" means the average employment of such concern and its affiliates during the period that such concern has been in existence based on the number of persons employed during each of the pay periods of the period that such concern has been in business.

TYPE OF OWNERSHIP DEFINITIONS (See Item 12.)

a. "Disadvantaged business concern" - means any business concern (1) which is at least 51 percent owned by one or more socially and economically disadvantaged individuals; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more socially and economically disadvantaged individuals; and (2) whose management and daily business operations are controlled by one or more of such individuals.

b. "Women-owned business" - means a business that is at least 51 percent owned by a woman or women who are U.S. citizens and who also control and operate the business.

TYPE OF BUSINESS DEFINITIONS (See Item 13.)

a. "Manufacturer or producer" - means a person (or concern) owning, operating, or maintaining a store, warehouse, or other establishment that produces, on the premises, the materials, supplies, articles or equipment of the general character of those listed in Item 10, or in the Federal Agency's Supplemental Commodity List, if attached.

b. "Service establishment" - means a concern (or person) which owns, operates, or maintains any type of business which is principally engaged in the furnishing of nonpersonal services, such as (but not limited to) repairing, cleaning, redecorating, or rental of personal property, including the furnishing of necessary repair parts or other supplies as a part of the services performed.

- **COMMERCE BUSINESS DAILY** - The Commerce Business Daily, published by the Department of Commerce, contains information concerning proposed procurements, sales, and contract awards. For further information concerning this publication, contact your local Commerce Field Office.
